I am an Assistant Professor in the CSE department at UC Santa Cruz, with expertise in computer security and networking research. My expertise lies in building empirical methods to detect, analyze and prevent large-scale security and privacy threats to Internet users. My research involves longitudinally measuring connection tampering attacks at global scale and has helped produce the [Censored Planet Observatory](#). I am the recipient of a FOCI Rising Star Award, an OTF Information Controls Fellowship, and an IRTF Applied Networking Research Prize.
